ARRANGING FOR USUAL DUAL WINTER SPORTS AT TOWN RINKS

Report from Provincial Sanitary Inspector Shows Much Cleaning-up To Be Done.

NIGHT WATCH IS APPOINTED

Possible Debutante Payments Are All Taken Care Of From Profits From Power Plant Can Be Used

The regular monthly meeting of the Town Council was held on Thursday last when there were present: Councilors Montgomery, Huntingford, Davison, Fish and Yeager. In the absence of the Mayor, Councilor Montgomery, deputy mayor presided over the meeting.

The minutes of last regular and a special meeting were read, and Yeager-Huntingford—that the minutes be adopted as read—Carried.

At the close of the reading of the minutes, Huntingford-Yeager—that we do now adjourn—Carried.

At the adjourned meeting held on Saturday evening, the waiver of notice calling the meeting having been read and signed by the members, all of whom were present.

Communications were read from:

Mr. M. L. Forster making application for the purchase of lot 11, blk 58, plan AD 5721 for the sum of \$25.

Davison-Fish—that the offer of \$25 for lot 11 blk 58 be accepted—Carried.

The Wainwright Town Band offering to play one night each week in the skating rink during the skating season in return to receive the use of the rink one night per month for carnal purposes.

Davison-Yeager—that the Town Band be given the use of the rink one night per month for supplying music one night per week during the skating season—Carried.

The Wainwright Curling Club applying for the use of the skating rink for the season of 1922-23 at \$100 for the season; the Town supplying sufficient water for making ice and also the usual bonspiel concession of the skating rink.

Davison-Wiley—that the communication from the Wainwright Curling Club be filed, and that the offer of \$100 for the season be outlined be accepted—Carried.

The School Lands Division, Dept. of the Interior, calling attention to payments past due and asking for a substantial remittance by November 30th, 1922.

Wiley-Fish—that letter from the school lands division of Dominion Land Branch be filed and that the amount set aside for the payment be forwarded—Carried.

The superintendent of the Buffalo Park asking for a settlement for the buffalo hide presented to His Excellency the Governor-General, the valuation of which having been made at the sum of \$100.

Davison-Fish—that the communication from the superintendent of the Buffalo Park be filed and the matter be taken up with the department by the secretary with a view to getting this amount materially reduced—Carried.

Mr. H. M. E. Evans, member of the Municipal Finance Commission, reporting authority to use profits from the electric light and power utility for the installation of second boiler, subject to the approval of the council.

SCHEME EXTENDED FOR NORTHERN DEBTORS

Fream to Negotiate In Alberta Commissioner Nailed For Parley Over Debts

Application from debtors in the northern part of the province who wish to take advantage of the government's offer to mediate between them and their creditors are now being dealt with by Commissioner E. J. Fream newly appointed to the public utilities board. A number of cases of this kind were already on file when the government decided on the extension of the scheme and further applications have since been coming in, all being referred to Mr. Fream for consideration.

Until the new commissioner moves to Edmonton with his staff at the beginning of December the northern debt cases are to be handled from Calgary with the organization already at work there on the southern Alberta relief.

The W.L. held a well attended meeting on Saturday at the home of Mrs. Middlemass, when the Rev. H. Wilson addressed the gathering with an interesting talk on "Irish Folklore."

LOCAL NOTES

Mr S. Killey is building a house and barn on Mr Joe Mabey's farm west of town.

Mr Horace King was in town last week from Calgary, and while here he sold the King block on Second avenue to Mr Frank Lush.

We learn that Mr and Mrs H. Ryan welcomed a son and heir to the family heart last week. Mrs Ryan, who is still in Winnipeg is getting along very nicely.

Will the party who took a pair of lady's brown wristlet gloves from the theatre last week return these at once to Mrs W. Huntingford and save any further trouble.

Mr E. L. Fuller left by auto last Saturday for Wetaskiwin to exchange positions with Mr O. Nelson as school inspector. Mr Nelson arrived here on Monday and will occupy the house now vacated by Mr Fuller.

GRAIN CONGESTION SIFTED IN ONTARIO BY HON. C. STEWART

Wheat Rush Dammed Between Bay Ports Montreal; Details Sought

The Manitoba Free Press publishes the following from its Ottawa correspondent:

The situation regarding the grain movement from the West has become complicated by a serious congestion between the bay ports and Montreal. This congestion obviously dams backward on the head of the lakes and serves to accentuate the difficulties already being experienced there in getting a large proportion of the big western crop through before the close of navigation.

In order to ascertain the real reason for the congestion, so that remedial measures may be taken to meet it, Hon. Chas. Stewart, acting minister of trade and commerce has sent an official down to investigate conditions at Georgian Bay ports and on the lines of railway between them and Montreal. A report is expected in two days.

Reports already reaching the department are to the effect that cars are not returning from Montreal to bay ports and that in consequence vessels are detained there for a costly period waiting to discharge their cargo.

Whether or not this is due to natural lack of cars or motive power, or whether the bay ports situation has been affected by the big leakage of cars across the Quebec and New Brunswick lines into the United States is a matter to be ascertained. In any case, the minister states that the government is ready to take whatever steps may be necessary or fitting to meet the situation.

The question of suspending the Canadian coasting laws is still in abeyance.

MR W. DREGER PASSES AWAY AFTER LINGERING ILLNESS

Had Suffered From Cancer For Many Years; Came To The West Some Twenty Six Years Ago

Many of the old-time residents of Wainwright will be sorry to learn of the demise of Mr William Dreger, who passed away at his residence in Edmonton on Saturday morning last at the age of 63 years.

Mr Dreger, who came to the west some twenty-six years ago, has lived for many years in the vicinity of Edmonton, and has farmed in the Colchester district as well as some ten miles south of town, his son Adolph being on the latter place. He was a sufferer for many years from a malignant cancer, this disease being the ultimate cause of death.

The first portion of the funeral services will be in the Moravian church in Edmonton on Sunday afternoon next, after which the body will be removed to Colchester.

A church service will be held at the latter place on Monday after which the interment takes place in the cemetery there Rev Mr Hoiler being the officiating clergyman.

The deceased is survived by a widow and nine sons and daughters (five boys and four girls) to all of whom sympathies are tendered in their hour of bereavement.

TRAIL RANGERS & TUXIS HAVE GREAT "POW-WOW" HERE

Visit of Taylor Statten and Wallace Fergie Big Leaders of Movement

(Held over from last week) Wainwright was alive with boys of all ages last Saturday, the occasion being the visit of Mr Taylor Statten, secretary of the National Boys' Work Board.

The Agriculture camp of Trail Rangers from Irma, came out in full force, travelling by motor, and the 'Holders' rangers and the Viking Tuxis turned out splendidly, lending a fine bunch of husky young lads—a credit to their towns.

The "Up and On" camp of rangers, stationed at Wainwright acted as hosts and through the kind co-operation of their mothers and friends had a bountiful banquet ready in Grace church for the noon meal.

About 100 boys and men sat down, large numbers of the boys bringing their fathers while others made a raid on the professional and business-men of the town and were thusly chaperoned.

Taylor Statten was in fine form and first led the crowd in songs and stunts that made all the old fellows feel young again. He then got off a racy speech on the needs of boy life urging fathers to try and understand their sons. He begged the churches to provide some activities for the lads at the critical teen age period, commending the C.S.E.T. programme as the best practical means christian Canadian citizenship might be mediated to the boys of today.

After Mr Statten's speech a large number of men had perforce to leave, but the boys of course remained and Mr W. Fergie talked earnestly to them on the work in Alberta.

Later in the afternoon a session was held, at which some vigorous relay games were indulged in, after which a "grand council" was held by Chas. Statten.

The "Up and On" camp are very grateful for the assistance which was rendered to them to make the affair so successful.

GREENSHIELDS GOSSIP

Mrs A. Robinson has become infatuated with our town and is now keeping house for her son Jim.

The ice was reported to be in fine condition in the neighborhood by a couple of skating parties held last week when a good time was spent by quite a crowd.

We learn that Mr L. Bean and son Re are arranging to take a consignment of cattle to the Winnipeg market to spend the winter in the district and Mrs Geo Wilson have left to spend the winter on their place near Lloydminster. Mr Wilson is wintering his big bunch of cattle there.

We learn Mrs. Chevalier, motorist over to Lloydminster on Sunday last. He reports the driving good.

We are glad to hear that Miss D. Rajot who has been confined to her bed for the past week is now much better.

LOCAL NOTES

Miss B. Olsen, of Gilt Edge, was a city visitor this week.

Dr H. L. Courcier was a tripper to the city over the week end.

Miss B. Jones, of Edmonton is a guest at the home of Mrs J. L. Gerow for a short stay.

Mr W. Misenor, of Edmonton, is in Calgary on this week putting the local pianos in shape for the winter evening.

We learn that Dr and Mrs Lockwood will be moving to their new home at Camrose at the end of this week.

After spending their honeymoon with friends in town, Mr James Enger an old timer here and his bride have left for their new home at Lucerne, B. C.

Mr Dave Hutchison and her son Oliver left on Tuesday morning for an extended visit to her sister in Glasgow Scotland.

Mr L. E. Minter, who is pretty well known to be in these parts, claims to have seen a bunch of some 22 birds which he believes are the old-fashioned English partridge during a couple of walks through his stubble fields last week.

LOCAL NOTES

Miss J. Labrie arrived from Cardiff, Alta., on Thursday last to take up her residence here.

We learn that Mr Dave Blain has sold his interest in the blacksmith shop to Messrs Boyer and Stanley who will continue the business.

A real timely and artistic display was given by the Women's Specialty Shop on Saturday last when a poppy display window properly commemorated Armistice Day.

At the elections held in the States last week the Republicans pulled out victorious with a small majority in the House of Representatives as well as in the Senate.

Owing to the resignation of Hon. T. Cregar as leader of the Federal progressive party, Mr Robert Forke, the sitting member for Brandon, was chosen to fill the vacancy at a caucus held in Winnipeg on Saturday.

ALBERTA IRON NOW SHOWN OF LITTLE IMPORTANCE

Deposits Recently Discovered Are of Doubtful Commercial Value

A report submitted to the Alberta Government's Council of Scientific Research by Dr. J. A. Allan, professor of geology in the University of Alberta states that the reported iron deposits on the north shore of Lake Athabasca are not of commercial importance.

These deposits were discovered last year by prospectors who staked claims and have since opened offices in Edmonton and Chicago for the purpose of interesting investors, their belief being that they had located a rich body of iron-bearing ore in quantity and quality sufficient to warrant development.

At the request of the Advisory Scientific Research Council, Dr. Allan went north in July of this year to make a thorough inspection of the deposit, and his report is based upon the observations he then made and the results of analyses of representative ore samples that he brought out with him. These tests have shown that the ore is of a comparatively low grade, while the quantity of ore available is negligible. The deposit therefore cannot be classed, says the geologist's report, as a commercial one.

It was also found during the investigation of the supposed iron area that it could not be worked economically, even if the quality of the ore were satisfactory, because of its distance from fuel supply and the fact it is 200 miles up-stream from any possibility of railway line on the north shore of Lake Athabasca and lies within the province of Saskatchewan.

Mr and Mrs R. Aykroyd are away to Edmonton for a few days.

FREAM CONFIRMS STATEMENT ANENT U.G.G. DIVIDEND

A Dividend For Shareholders This Year, Is the Statement of Secretary.

Light crops and taking care of the losses in the farm machinery section of their business is the cause of the United Growers' Limited not being able to declare any dividend this year, according to a statement made in Calgary on Tuesday, by E. J. Fream, the secretary.

Mr Fream stated that the matter was pretty fully explained in his letter which was published and which has been addressed to the shareholders. He stated in reply to a question, that he had no reason to believe but that the meeting would be accepted when the annual meeting is held here on November 25.

This is the first year that the U. G. G. has not been able to pay a dividend ever since it was organized. It was in September, 1906, that the Grain Growers' Grain Company amalgamated and the following September the United Growers, Limited, came into being.

In the early days a dividend of 15 per cent was paid. From 1907 to the end of 1918, 10 per cent was the dividend. In 1919 there was a dividend of 6 per cent; the following year it was increased to 8 per cent. Last year the U.G.G. paid 6 per cent.

BRITISH PETROLEUMS SECURE PLENTIFUL SUPPLY GOOD WATER

In Deepening Water Well For Sluicing and Boiler Purposes Big Supply Made Available

Formation Shows Promise Of Being Much Neater Oil Sands Than Well At Fabyan

The report from the drillers at the Hugh Campbell well, No. 1 of the British Petroleum this week, shows that this hole is proving to be much nearer to the oil bearing strata than is the ground level at the Imperial well at Fabyan. The big bit is now down around 200 feet, and the strata being encountered is just the same as that which was discovered at Fabyan at depths running about 350 to 400 feet from the surface.

As we fully anticipated, the delay in the operations of the British Petroleum Limited, owing to their desire to deepen their water well so as to insure an absolutely abundant supply, has proved but temporary.

The company has secured an ample, in fact a super-abundant supply, and have since gone merrily forward with their drilling operations—which it must be ardently hoped by all will before long be crowned with success.

The company are fully expressing themselves as fully determined to press forward to actual production of oil, notwithstanding any trifling difficulties which may arise from natural obstacles or from hostile (although not always avowed) so critics. They are, we are assured, quite content to let facts as proved speak for themselves.

We hold no brief for the British Petroleum, but we ARE deeply interested in the development of the Wainwright field, and place the proper value upon what they are doing along the line of such development, since it will be a local hearing, we take the liberty of clipping the following from the Montana Oil Journal, of Great Falls: "S. S. Stanner, of Edmonton, Alberta, owns a half section 15-34 3W under lease to the California company. He has just received a payment of \$640, the lease providing for an additional \$1 for each six months during which there is no actual drilling. His next rental should be \$640, the next \$1280, and so on until the lease is drilled. His home, formerly here, is now in Edmonton."

DISTRICT NO. 25 OF I.O.O.F. HOLDS ANNUAL MEETING

D. D. G. M. Bro. A. E. Ripley, of Edmonton, Conducts Large Gathering of Three-Link Members

The annual district meeting of District No. 25, of the I. O. O. F. order, which is comprised of the lodges from Irma, Wainwright, Edmonton and Chauvin, was held in the Wainwright lodge room on Monday when a large number of brothers were in attendance.

D. D. G. M. Bro. Ripley, of Edmonton, occupied the chair, and the accredited delegates comprised Bro. McDowell and Taylor, of Irma; Bro. McLeod and Bowen, of Wainwright; Bros. Pawsey and Bransgrove of Edmonton; and Bros. Swann and Saul, of Chauvin; with Bro. W. Huntingford, district secretary. Unfortunately the Irma delegates were unable to be present.

A large amount of business peculiar to this organization was gone through, and at the close a delightful lunch was served, when speeches on the aims and objects of the order and the workings of Oddfellowship in general were ably expounded by the D. D. G. M., who occupied the chair for this function also, and very many others of the brothers present.

Altogether, the affair was one of the best yet, and "the boys" had had for some time, and it is hoped this will prove only the opener for several such meetings during the coming winter.

MANITOBA LOOKS LIKE NEW COAL MARKET

A further step was taken toward securing a winter market for Alberta coal at the conferences held in the Board of Trade rooms in Winnipeg, and which was attended by representatives from the Western Canada coal dealers, delegates from the Calgary Board of Trade, in addition to Howard Stutheby, provincial trade commissioner.

W. H. Edmondson, Medicine Hat and Lethbridge boards of trade were requested to send representatives to the conference, they failed to do so. It was the unanimous opinion of the meeting that a determined effort be made to secure the Manitoba market, particularly that of Winnipeg.

must mean so much to all of us, and yet, curiously enough, there are some people who seem disposed to listen to and to circulate at kinds of idle yarns rather than do all in their power to show appreciation of these efforts to obtain an actual producing well—and that at the earliest possible moment.

No one is likely to say much in objection to such uncorroborated stories as have been set in circulation, while the prudent man will surmise as to the true motives of those who fabricate them.

Nor is this propaganda confined to our own district. Statements are appearing in the press elsewhere delightfully knocking the Wainwright field and apparently aimed at shaking public confidence in its value. Some of the statements are so ridiculous to anyone living in the district and aware of the true conditions that they are almost a matter for laughter if they had not also a serious side. Very few persons who have resided here during the past few months have any doubt that there is crude oil here in abundance, and to ask us to believe otherwise is tantamount to asking us to doubt our own sight, our smell and our brains.

We have no desire to even conjecture the motives of those who circulate statements—in conflict, indeed, with the actual evidence—to the disadvantage of the Wainwright field (it might be said of the Alberta fields), yet we are reminded of the words of Charles Kingsley: "Motives are like some chemicals—the more you stir it the worse it stinks," and feel that the shrewd folks of the Wainwright oil district are seeing to it that stories or no stories, each and all are out to lend what assistance is possible towards the development of what may yet prove to be the wonder oilfield of the world!

As proof that Alberta does contain oil deposits, of untold quantities the message brought from Lethbridge last week, having tipped over of the well. The depth of the hole was then some 250 feet, and it was considered that within another 100 feet an actual flow, would be struck.

As it has a local hearing, we take the liberty of clipping the following from the Montana Oil Journal, of Great Falls: "S. S. Stanner, of Edmonton, Alberta, owns a half section 15-34 3W under lease to the California company. He has just received a payment of \$640, the lease providing for an additional \$1 for each six months during which there is no actual drilling. His next rental should be \$640, the next \$1280, and so on until the lease is drilled. His home, formerly here, is now in Edmonton."

As showing the enormous profits which are being made in oil and oil products (and in which many in this field would like to have a finger) the news comes from New York that the board of directors of the Standard Oil company of Kansas have approved the declaration of a 300 per cent dividend!

REPORT OF HOLMSTEAD SCHOOL FOR OCTOBER

The following is the attendance record for the Holmstead S.D. for the month of October—

Enrollment, 237; aggregate day's attendance, 391; average attendance, 19.55; percentage of attendance, 83 per cent.

TROUBLE LIKELY FROM FORCED EMBARGO

U. S. Ban Unlikely; Retaliation Would Be Detrimental, Washington Officials Say

No embargo on Canadian grain is probable, despite the demands of the American farm bureau federation and other farm organizations. This is the information which is given out here unofficially from sources intimately in touch with the situation.

It is pointed out that to embargo Canadian grain is possible inasmuch as there are thousands of Canadian cars on this side of the line, would probably mean retaliation should the United States desire to move grain through Canada, as it sometimes does.

Moreover United States railroad lines promise soon to relieve the congestion of grain at the small elevators in the west and northwest and say they are near the end of the worst of their car shortage.

Mr D. Blain is moving his family into the Herbert house on Fourth avenue.

On account of desiring specialist advice for his ailment, Mr A. Coffield was taken to the city this morning.

YOU'LL FEEL GOOD IN OUR FINE FURNISHINGS

"Feeling good" is the one big thing in life. What else do we live for.

To really "live" you must have comfortable socks, and underwear and shirts and pretty ties—all kinds of good fitting, good feeling, good looking clothes. We have them.

We treat you right when you buy. Come in.

WINTERING STEERS Do Lightning Rods Protect

(Experimental Farms Note)

More cattle are marketed in Western Canada during October and November than during the other ten months of the year and at prices lower than generally prevail at any other season. A large number of cattle thus marketed are of good type but are immature and unfinished and would, with some more careful feeding, show an increased weight and bring a higher price per pound. For eight years cattle have been purchased by the Western Experimental Station in the autumn, fed on home grown feeds during the winter and sold in the spring at good profits over labour and interest with the one exception of the spring of 1921 when the unexpected slump in prices put so many cattle men out of business.

Shelter

Buildings are not necessary but where trees are not available an enclosure 80 feet square provided with an 8 ft fence and with a division down the middle and a pole and straw roof covering 20 to 30 feet of the north side affords ideal accommodation for two lots of 20 steers each. This must be provided with feed racks and feed troughs for hay and meal. A drawing illustrating this may be had by writing the Superintendent, Experimental Station, Rosthern.

Comfort

If the lumps are not taken away from under the shelter at least two or three times weekly and straw put down the cattle will lie down anywhere or stand beside the fence and shiver; but if the shelter is frequently provided with fresh straw then all the cattle lie under the shelter.

Dehorning

Cattle with horns will not thrive in such close quarters. Some will not be allowed by the others to feed nor to go under the shelter.

Water

If water is made available at all times by providing a heater in the tank the cattle will drink often but never enough at one time to take a chill.

Feeds

Oats and barley are necessary with a larger proportion of oats at the beginning and a larger proportion of barley towards the end of the feeding period. Three pounds per steer per day is sufficient to start on gradually increasing to twelve pounds per day by the end of April. Hay, either native or cultivated, is good roughage though cut straw will do until the last six weeks when hay must be fed for best results. Turnips or ensilage at 24 lbs per day afford splendid succulent feed although good results have been obtained without either.

Don't Forget To

Buy steers of good type when prices are low; Dehorn; Provide adequate shelter and comfort; Provide available drinking water; Use home-grown feeds.

RECORD TRIP MADE BY AUTOMOBILE

415 miles in 9 Hours, 26 Minutes, 55 Seconds On An Ordinary Alberta Road

It has remained for an Alberta driver and a Canadian made car to set an American dirt road record that will probably live for many a year. The stunt was performed Sunday November 5, when Paul Welch, in a McLaughlin Buick Master Four, stock model, made the trip from Edmonton to Calgary and return, 415 miles in 9 hours, 26 minutes and 55 seconds. The time includes two stops at Red Deer for gas, totalling 3 minutes, stop at Calgary for registration, 3 minutes, five minutes lost through a puncture, and the period lost through losing the trail out of Calgary and retracing five miles. The ten miles travelled in this manner is not included in the mileage from Edmonton to Calgary and return. Mr. Welch was accompanied on his trip by Steve Playford.

The fastest time made was from Edmonton to Calgary, 4 hours, 32 minutes; the return trip took 4 hours, 51 minutes, 55 seconds, due to losing the trail and the puncture. The fastest the car travelled was 68 miles per hour and the slowest 15 miles. Turns were made at 25 miles an hour by the expedient of turning the front wheels sharply and locking the rear ones, a practice which Driver Welch does not recommend for amateurs.

The common stock motor of the Master Four performed perfectly, declares Mr. Welch, living up to a trial that should never have been asked of it. The car itself was five feet in the air after some of the bumps, taken at 60 miles an hour, but that strain was minimized by the Hartford shock absorbers with which the car was equipped. On the return home there was not a rattle in the machine; even the body bolts had not loosened.

The man who talks loudest about the composition of the city council is usually the man that does not bother going to vote on election day.

When a new girl comes to a small town all the boys sit up and take notice.

FRIENDLINESS

Ask any man who has made a success what are the best tools of accomplishment.

He will tell you—Study and Hard Work.

Yet one of the most effective tools of accomplishment is at the same time one of the most agreeable to use—namely, Friendliness.

In this final analysis most of the big successes of life are through operation with human nature—through co-operation, since, with the possible exception of invention, most progress and production are group propositions.

And the greatest mover of a group is—friendliness.

Friendliness could cure the world of its troubles.

Friendliness is a reciprocating tool when you use it with another there is a reaction in your own favor.

Friendliness is easier to use, once you catch the idea of it, than to discard, to get along without.

Friendliness is a method of inspired thinking—it comes from the soul.

It is best evidenced by the eye and by action—two infallible indications. It can be expressed by the voice, but this is by no means a sure proof.

Friendliness can best be cultivated by getting the "you" point of view and forgetting the "I" as a dominant factor.

In short "the other fellow" is the principal figure in friendliness.

Friendliness is the begetter of service. It is a seeker after opportunity to help.

It asks—"what can I do to assist you?" and becomes in business, still friendliness when it adds—"which will also assist me?"

Business friendliness is at its best when it gives fully as much as it gets in direct value and adds, in addition, the indirect service possible and holds itself ready to do more if possible.

Friendliness is an art—not necessarily of forgetting yourself but of remembering the other fellow first. Often a smile or a cheery word does the trick.

To be friendly you have to learn to like people. Tell people you have to learn to know them.

It is simply astonishing how many fine people there are in the world if you will break down your own reserve and try to know them.

The use of friendliness is a developer of personality.

Friendliness is the greatest of sales assistants. Get acquainted with it!

—Col. B. A. Franklin.

You can't please everybody; it makes half the people sore if you please the other half.

DEHORNING CATTLE IS NO FAD

A splendid pamphlet on the advantages and methods of dehorning commercial cattle has been issued by the Dominion Live Stock Branch.

"Dehorning is no fad," the writers remark. "It is a feed lot and market requirement. Horns are a handicap to commercial cattle. They add to the cost of production and discount the selling value of the animal. Our feed supply cannot stand wastage. From the calf-pen to the block, horns are a bill of expense to the producer and feeder. They are of no economic value to the farmer, butcher or exporter, but are often the cause of untimeliness, discomfort and injury in feed lot and stable result in the placing of second class goods on the market, and cause heavy losses in killing. On the small farms and on many large ones, all classes of live stock are pastured in the same field. Scores of cases are known where, as a result of the cattle being horned, valuable young colts, sheep and lambs have either been killed or disabled through being hooked. Every year thousands of dollars are lost to the farmer, directly through a lack of that even temperament in the herd so necessary to economical production and an equal chance for every animal in the herd and indirectly through the cut in the market price levied on bruised and torn cattle."

"In practical experience work in dehorning carried on in all provinces of Canada by the Dominion Experimental Farms' System, the weight of evidence in favour of feeding dehorned stock should give tremendous impetus to the policy. In one typical case a lot of eight dehorned steers made an average gain of 23 pounds over a similar number of horned animals. Another lot of twenty-four dehorned steers made average gain of 41 pounds in three weeks; one lot of eight steers dehorned and running loose made an average gain of 136 pounds and another lot a total gain of 910 pounds. In all cases dehorned steers running loose made superior gains to tied steers."

"Dehorning permits of loose feeding a method very conducive to good gains. In a large majority of cases, no reduction in weight occurred and where met with, the loss was overcome by very substantial gains by the end of two to four weeks. It is for these reasons that all extensive cattle feeders practice dehorning."

The pamphlet is No. 15 of the new series and will be sent free on request to the Department of Agriculture, Ottawa.

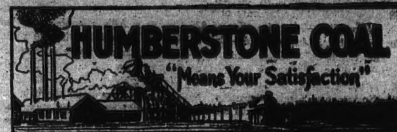

Excellent Service For the Eastern Canada Trips

With the operation of the "Continental Limited" to and from the East, with the suitable branch connections, and also with the operation of the "National" from Winnipeg to Toronto, connecting with all Ontario points, the Canadian National Railways offers an unexcelled service for those who contemplate taking advantage of Eastern Canada excursions this winter. The Sleeping and Dining Cars are now at a reasonable price and within reach of all.

The excursions to the East commence December 1st, when the Canadian National Railways will have on sale daily and up to January 15th, first class round trip tickets at single fare and one third from all stations Winnipeg and Emerson west in Manitoba, Saskatchewan and Alberta. Tickets will be good for 3 months from date of issue with certain stopover and extension privileges. 18-12

Dominion elections are held in Canada at the close of each five-year term for which parliament is elected. Dissolution may take place within that period, however, if the government of the day is defeated on an important motion, which calls for a new expression of the people at the ballot box. General elections have been held in Canada in 1896, 1872, 1874, 1878, 1882, 1887, 1891, 1896, 1900, 1904, 1908, 1911, 1917, 1921.

The woman has yet to be born who would mistake a plank wrap for a seal-skin on the back of a neighbor.

WAINWRIGHT, ALBERTA - NOVEMBER 16th, 1922

READER INTEREST
IS ESSENTIAL

When John Wainwright, some years
ago, withdrew his advertising from free
distribution, it was because these had
no fundamental reader interest. This
was the finding after a deep study of
the subject. It was the conviction that
the man who subscribed for a news-
paper or other publication, expected to
find advertising in it and valued that
advertising as in the light of an in-
vestment, as something he had ap-
preciated sufficiently to pay for.

The opposite was the effect of the
free-distributed product. Here the re-
ceiver had no primary interest in the
publication; it appeared in unexpected
places, without request, and had some-
times the status of an unexpected guest.

Then as now, free-circulation, me-
diums were found to recognize no re-
sponsibilities toward the problems at-
tending the business or industry, of-
fered no constructive service through
their columns, had no means of de-
veloping helpful discussion offered no
interchange of news or views, and in
short had no interest beyond that con-
tained in their advertising pages and
the revenue they represented.

GETTING IN
THE TAXES

A firm of auditors was appointed by
the Provincial Government, at the re-
quest of the Oshawa town Council, to
make a thorough investigation into the
affairs of the Municipality. The re-
port alleges that thousands of dollars in
revenue have been lost to the town
by failure to collect taxes and enforce
penalties provided for arrears in pay-
ment of same. In Wainwright some
citizens have felt the Council insisted
too strongly on the payment of taxes
by a specified time, and the collecting
of interest where taxes are not paid
promptly, but any Council that fails to
do so finds itself in trouble sooner or
later.

ADVENTURE
IN BUSINESS

To the spirit of adventure—that won-
derful spirit of our British ancestors
which sent them out into the four cor-
ners of the world and so largely con-
tributed to the splendor of the Empire
of to-day—was given credit for the
initiative and the enterprise which are
so important in the success of modern
engineering enterprises and business
ventures. By A. Monroe Greer, K.C.,
C. president of the Canadian Niagara
Power Company, in an address before
Purchasing Agent's Association of Tor-
onto says an issue of the Financial
Post Mr. Greer emphasized that the
upholding of a great nation was
due in the last analysis to the efforts
of individuals—men of vision and of
courage. In this connection he con-
tinued:

"When we contemplate such a thing
for instance, as Public Ownership—
admitting everything good you like
in its favor—there still remains this
significant fact that we are made up of
a set of individuals and that to the
extent that we curb the likelihood of
our growing, And so I suggest to you
that you lay hold with all the firmness
you can to that great spirit of adven-
ture which characterized the great
great thing which we call the British
Empire."

Mr. Greer did not use the word
patriotism but he might well have
done so. Patriotism is the virtue, the
day of society based on democratic
ideas. Government owned public ser-
vice government provision for the un-
employed government pensions, etc.,
are all tending to destroy the spirit of
responsibility of initiative and, as Mr.
Greer emphasized, the spirit of ad-
venture with which those individuals
who have set their mark on the march
of progress have been imbued.

CLEAN UP AND
AGAIN—CLEAN UP.

Those old paint buckets under the
house or in the closet. You used them
while painting up last spring—they are
about right now, to start a fire.
The special edition of a magazine or
paper lying behind the kitchen cabinet
—you never went back to read it the
second time.
The shavings and scraps the car-
penters left when they remodelled the
house. They are stuck around in piles
in the basement and around the yard—
Unsanitary and dangerous.
The box and excelsior in which the
furniture was packed. Its up in the
attic and you are going to use it some-
time—Said that last year.
Those buckets you mixed the white
wash in last spring. They are around
on the north side of the house, though
it was best to leave them where the
sun would never reach them.
The hat boxes and tissue paper
which came around last Easter's hat
and clothes. They are up in the attic
with those from Easter before last.
They are doing no good—might do
harm. Better clean up and get rid of
them.
Take a look around your premises.
Get those fire breeders out of your
house and out of your yard. They be-
long to the dump heap, but will never
get there until you start something
Start them now—That's your job.
—Fire Marshal

NO MORE
"BY THE BUSHEL"

A new "Root Vegetables Act" will
soon come into force which provides
that all roots and vegetables shall be
sold by weight instead of by the quar-
ter peck as is generally the case at pre-
sent. The system of measures hitherto
in force will be abandoned and people
will learn to order vegetables by the
pound. The Federal Department of
Agriculture has been requested to issue
cards, which grocers can display in
their stores, which will inform custom-
ers that vegetables must be sold by
weight.

We are not responsible for opinions
expressed by correspondents.

TO ALL WHEAT GROWERS

The Editor:

May I crave a small space for a
beneficial talk to our farmers?

You have a mill at your door equip-
ped with all modern improvements for
making flour. Do you use it? The
Wainwright flour mill has already
made nearly 1,000 bags for the local
farmers this season. (Besides large
quantities of wheat) and this flour
has cost the farmer from \$2.15 per 93
lbs. instead of \$3.50 to \$4—a direct
saving of at least \$1,000 in the aggregate.

We return 58 lbs. of flour and feed
for every bushel of clean wheat
brought in, and will give anything re-
asonable in the way of yield in flour
or cream of wheat, or rolled wheat,
payment for the grinding being made
in grain of any kind if desired.

Give the farm a chance to support
you!

Big grists expected in this week in-
clude quantities from Edgerton, Irma
Vermilion, etc., and I feel that the
question is looked into as it should be
by our farmers they will see the ad-
vantage of dealing with their home
mill and supporting a home industry
to their financial advantage.

C. A. WALTON

LIGHTEN THE LOAD!

The Editor:

I shall be glad if you will favor me
with your indulgence, and space in
your column, to make an ap-
peal to the users of electric energy,
for the manipulation of such house-
hold conveniences as irons washing ma-
chines, etc. that, as we are now pre-
pared to give them the energy during
two forenoon each week, viz: Tues-
day and Wednesday, for the above pur-
pose, each one refrain from using the
heaviest, but confine the use of such
energy to the two forenoons, between
the hours of 7:00 o'clock and 12:00
noon.

By thus conserving on the lighting
circuits when the pull is the heaviest,
we shall be able to carry on, we hope
during the coming winter with our
small dynamo.

Last week we had to shut down to
repair a damaged bearing caused
directly from the overload consequent
on the use of irons during the evening.
Please, therefore, refrain from iron-
ing and washing at night, and I feel
confident of being able to give un-
interrupted service with our present
facilities.

W. W. YEAGER
Chm. Fire, Light and Power com.

The Editor:

Regarding what it costs to produce
a bushel of wheat. At the price of
wheat, say 85 cents per bushel it

would take two bushels to buy a pair
of gloves; five bushels to buy a pair
of boots; should the farmer travel in
a train and purchase a berth, another
five bushels gone; and if he stayed
overnight in a hotel, two more bushels
gone. If he bought a very simple meal
another bushel gone. To buy one of
the cheapest automobiles would need
the full production of thirty acres. In-
fact, at the price of 85 cents it takes
a bushel to buy a necktie; two bushels
to buy a half-dozen collars; and one
and one-half bushels to buy a pair of
suspenders. One bushel to purchase
two pair of socks; five bushels to buy
the farmer a hat, and it takes the pro-
duce of three acres to buy an over-
coat and a thirty dollar suit. A mon-
key-wrench costs one bushel. It takes
300 bushels to purchase a binder.

I will not enumerate further; but I
consider that when the cost of living
is high the farmer ought to, at least
have a ten hour day, and one dollar per
bushel for his wheat, so that he could
pay his insurance bill, and to that
when he shuffled off the earth, his
wife and family might be able to pay
off the mortgage.

Yours truly,
GRAIN GROWER

POINTED PARS

Rich men have their country places,
but poor men must be satisfied with
farms.

Time flies but the orchestra leader
can hear it.

It is reasonably safe to judge a man
by the friends he hasn't.

Fans seldom come to the man who
sits down and waits for it.

Mend your own faults and don't let
the faults of others worry you.

JUDICIAL SALE OF
FARM PROPERTY

Near Wainwright, Alberta

PURSUANT to judgment and final
order of sale, there will be offered for
sale by Stephen R. Boverman, at the
Town Hall, in the Town of Wain-
wright, in the Province of Alberta, at
One o'clock in the afternoon, on
SATURDAY NOVEMBER the 25th
A.D. 1922, free from all encumbrances
save taxes for the current year and
subject to the reservation and condi-
tions contained in the original order
of the Court, or in any existing
Certificate of Title the following lands
namely:

The South-East Quarter of Section
Thirty (30), Township Forty-four
(44), Range Five (5), west of the
Fourth Meridian, in the Province of
Alberta, containing 160 acres more
or less, reserving unto his Majesty,
his Successors and Assigns all the
mines and minerals.

The Vendor is informed that this
property consists of 160 acres and that
practically the whole of the said land
is good arable land. The said property
is fenced on all sides with a wire
fence. The soil on the said land is a
sandy loam approximately eight inches
deep with deep clay subsoil. The
property is watered by two good wells.

The nearest town to the said land is
Wainwright, a distance of seven miles.
The property is situated in a settle-
ment of English-speaking people. The
property is situated 4 miles from a
school. There are the following build-
ings on the said property—One horse
barn, 28ft by 40 ft, 10ft high with hip
roof; One lean-to cattle barn 14ft by
40 ft, 7ft high on low side; One two
storey, farm house 16ft by 26ft; One
implement shed 44ft by 25ft with drive
way open at one end. The said build-
ings are in a fairly good state of repair.

There were 130 acres of land under cul-
tivation on the said property this year
50 acres being cropped with wheat and
the balance summer fallowed.

This property will be offered for
sale subject to a Reserve Bid. The
terms of payment will be ten per cent
cash on the day of sale and the bal-
ance to be paid into Court within sixty
days thereafter without interest, or in
the alternative, ten per cent as afore-
said, the execution of a mortgage by
the purchaser for the sum of \$1000.00
and the remainder of the purchase
price to be paid into Court within sixty
days from the date of sale without
interest. The mortgage shall bear a
term of three (3) years, payable as fol-
lows:

The sum of \$333.33 one year from
the date of sale and a similar sum two
years from the date of sale and a sim-
ilar sum three years from the date of
sale, and shall bear interest at eight per
cent per annum payable yearly.

Other Terms and conditions are
the standing conditions of the Superi-
or Court of Alberta, as settled by
the Master in Chambers.

Further Particulars may be had
from Messrs Cormack and Drysdale,
solicitors, 316 Empire Block, Edmon-
ton, Alberta.

Dated at the City of Edmonton, this
12th day of October, A.D. 1922.

R. P. WALLACE,
Clerk.

Approved: A. Y. B.,
J.C.

BULLETIN FROM PROVINCIAL GOVT.

Issued by the Publicity Commissioner
Government Buildings, Edmonton
For Publication Week Of
November 13th, 1922

Opening of House Postponed

The opening of the Legislature, which was billed to take place on December 7, will not now be held until January 23, owing to the fact that Premier Greenfield will be engaged in the conference on natural resources at Ottawa for the last two weeks in November and that the government is not quite ready with its program for the session. The premier is keen to go into the session fully prepared to proceed with legislation. The date of January 23 is ten days earlier than the date of opening last spring.

Druggists Relieved of Liquor

Druggists in the four cities of Edmonton, Calgary, Lethbridge and Medicine Hat, are to be relieved shortly of the responsibility of the sale of alcoholic stimulants, according to an announcement by Attorney-General Broome. The sale of liquor in these cities will henceforth be conducted solely by government vendors. This will necessitate the appointment of vendors in Lethbridge and Medicine Hat. In towns and outlying points druggists will continue to dispense liquor on prescriptions, but the quantities will be reduced to six ounces in bottles sealed and supplied by the government.

Inspect New Line

Several of the members of the government accompanied by officials of the railway department and others made an inspection trip over the new extension of the Lacombe and Blindman Valley Railway west of Lacombe the past week. Service over the new extension, which runs to the terminus of Hoadley, 12 miles beyond the former terminus, will be inaugurated November 13.

Auto License Plates

Forty-two thousand new auto license plates for the province have been ordered for 1923. These will be made with white figures on a blue background.

Nearly 40,000 auto licenses were issued during the present year.

Stock Exhibit from Alberta

The second annual exhibit of steers for the eastern stock shows, from the college of Agriculture of Alberta, left the east week in charge of prof. Sackville, who replaced prof. Dowell as professor of animal husbandry. The exhibit will go first to the Royal Show at Toronto, then to the International Show at Chicago and afterwards to Guelph. The steers were contributed to the shipment by the following breeders in the province—Short horns by T. B. Rathbone, Aldrie, J. L. Walters, Oliver, J. G. Clarke, Irma, Chas. Yule, Carstairs, Wm. Sharpe, Lacombe, J. H. McArthur, Milberton Herefords by Frank Collicutt, Crossfield, Kleston Ranch, Camrose, S. M. Mac, High River, Simon Downie, Carstairs, S. D. Blair, Red Deer, Angus Steers by Judson Ross, Lloydminster, Dickson & Hunter, Innisfree, C. H. Richardson, Bowen, Thos. Henderson, Lacombe. In addition there is a shorthorn steer from the Olds agricultural school, a particularly fine specimen, also a Hereford calf bred at the University, and two shorthorn grades bred at the University.

Live Poultry Shipped East

For the first time in the history of the co-operative poultry marketing service, a carload of live poultry was shipped out of the province by the marketing service of the Provincial Government with the co-operation of the Dominion Poultry officials. The car was shipped to Montreal. If the experiment is a success other shipments may be made to the eastern market.

New Triumph for Phone System

Edmonton people are now able to talk to those in Salt Lake City Utah, 1100 miles away, as a result of satisfactory phone connection, established the past week between the Alberta government Phone system and the Mountain States Telephone system. It is now possible to talk long distance on thousand-mile circuit from Alberta. The new connection was made at Coeur d'Alene, a few days ago, and a conversation held between Edmonton and Helena, the capital of Montana.

Important statements to Municipal Convention

Hon. Mr. Hoadley told the convention of Rural Municipal Districts at Calgary that the domestic animals act would be re-drafted and put in such shape that all the clauses applying to municipalities would be put together in one portion of the act. He also explained that permission to hold round-ups in unorganized territories must be secured from the minister of agriculture under conditions of the act, but that in organized municipalities, the councils had the right to conduct round-ups without any reference to the minister. Hon. Alex. Ross, minister of public works, also a visitor to the convention, spoke in reference to the re-organization of the highways branch, saying that he believed now that the road work in the province was being organized on such a basis that the appointment of an independent highway commission would not be necessary. He repeated his opposition to the establishment of such a commission. The report of the executive committee of the convention on its dealings with Mr. Ross on the matter, was adopted by the convention as being satisfactory.

SHINGOLEEN

THE SUPREME SHINGLE FINISH

Shingoleen, when used on shingles, will ensure utmost protection against all weather conditions. Also, its colors will remain fresh and clear long after those of ordinary shingle stains would have become dull and faded. This is the result of the use of a certain combination of oils which when dry form a positively non-porous film. Shingoleen goes further and lasts longer than shingle stains.

Third Ave. Wainwright

The first known use of the phrase
"God Save the King" is found in "The
States Papers," vol. I, page 184, under
the head, "Pete taken by the Lord
Admiral the 10th of August, 1545."
It reads: "The watch word in the
night shall be thus: God Save King
Henry; tother shall answer — "And
long to reign over us."

Running a business is just a slow
and painful process of adjusting one's
self to new tariff laws.

In this glorious land of opportunity,
any boy has a chance to grow up and
become a labor official.

BY J. E. BOWSTEAD

Asst. Prof. of Animal Husbandry, Uni-
versity of Alberta.

In the ancient records of history,
cows freshened in the spring produced
their milk during the summer, and were
"foughed" through the winter on any
forage that was available. Especially
during the last century, different meth-
ods of breeding, feeding and care
have been practiced. Changes in the
dairy practices have resulted in increased
milk production. The increased milk
production secured by the better dairy
practices necessitates more feed, labor
and attention by the farmer than was
necessary when the former method was
used. The farmers who are practicing
the best methods have found that their
added feed, labor and care has been a
profitable undertaking.

A recent survey conducted in the
United States from the records of 10,
870 cows shows very forcibly the in-
fluence that the season of freshening
has on the milk production of dairy
cows. The data was secured and it was
evident that the cows freshening in the
fall averaged over 800 lbs. more milk
per year than those freshening in the
spring. Even those cows freshening
during the winter showed about a 600
pounds increase. This increase, how-
ever, has not been accomplished on the
same feed or labor that was given the
cows that freshened in the spring.
When cows freshen in the fall there is
a longer period of grain feeding. Cows
freshening in the fall must be cared
for in a different manner than those
whose dry period is during the winter
months. It is, therefore, evident that
fall freshening incurs a higher feed
bill and additional labor. Farmers
should realize that this additional labor
comes at a time when the other farm
operations are not taking up much of
their time, and that the heavier flow
of milk is produced during the months
of the highest prices, and that the
largest amount of concentrates fed re-
sults in the mature value.

Indications show that the highest
prices for milk and cream are paid
during the fall and winter months.
Cows freshening in the spring have
their largest flow of milk during the
months of low prices. We can safely
assume that, with water cows whose
lactation period is 10 months, 50 per
cent of their yearly production is with-
in the first four months, and 20 per
cent during the last three months of
the lactation.

Figures indicate that the most pro-
fits from dairying are made from cows
that freshen in the fall and early winter.
Some farmers have failed to realize
this fact even though the prices for
milk and cream have been fluctuating
in similar manner (as shown by close
study) for many years. A large percent-
age of the farmers are still breeding
their cows for spring freshening. Their
argument against fall freshening are
many; it requires too much work, their
buildings are inadequate for the proper
care of cows milking heavily during the
winter, feed bills would run too high,
a few of the many reasons that the
farmers give. Under some of the
conditions that exist in the western
provinces it is impossible for a few
farmers to make a success in having
their cows freshen in the fall or early
winter. Insufficient water on their land,
inadequate buildings, and the necessity
of some farmers selling their grain
crops in the fall to meet certain pay-
ments on their land, are some of the
obstacles facing these farmers.

It should be the ambition of every
farmer to secure more money from his
cows. The fall and early winter fresh-
ening of dairy cows should be under-
taken by all farmers who have this
ambition. The additional labor and feed
involved in this dairy practice will
be well paid for by increased milk
production and make it possible for
farmers to sell the large part of their
milk during the period of high prices.
The extra labor necessary comes dur-
ing the winter months when farm
wages are the cheapest and when the
farmer cannot work on his land.
Dairy cows freshening in the fall do
not require an expensive barn or elab-
orate equipment to be properly
housed over winter. A simply con-
structed barn with plenty of light and
ventilation, comfortable stalls and
plenty of bedding are essential. Intel-
ligent feeding of the cows during the
winter months is necessary. The ration
should be a balanced ration fed accord-
ing to the cow's requirements for main-
tenance and production. Cows thus
housed and fed will maintain a good
flow of milk throughout the winter
months. When they are placed on
pasture in the spring they generally

A greater influx of tourists and
excursionists is expected at these
North Pacific Coast resorts, as
these cities have taken consider-
able trouble to make the country-
side acquainted with the beauties
of our coast points as winter re-
ports.

is a slight increase in the milk flow.
Cows freshening in the spring have
a tendency to dry up as the pasture
becomes dry. As a result, these cows
either are dry or give a very small
amount of milk during the winter
months. Cows freshening in the fall or
early winter can be fed and cared for
so that a good milk flow will be main-
tained throughout a ten months lac-
tation period. The dry pastures come
at a time when the cows should be dry
and when less feed is required for
their needs.

The practice of fall freshening, there-
fore, seems to fit well into the general
farming operations. The work on the
farm is spread over the whole year.
Increased milk and butterfat pro-
duction, longer lactation periods, high
prices and increased profits accom-
pany this system. Many farmers are
still failing to realize these facts, and
as a result are not giving the dairy
cow a chance to produce what she
is capable of producing, and are not
taking advantage of the fluctuating
market prices to make dairying more
profitable.

Railway News

Winnipeg, Man.—Since the com-
mencement of the crop year up to
Oct. 1st, 85,585,574 bushels of wheat
have been marketed by the Cana-
dian Pacific Railway western lines.
It was announced at the local office
recently. During the same period
the company handled 12,229,772
bushels of coarse grain and for the
same period last year, 95,164,115
bushels of wheat were marketed as
well as 5,940,688 bushels of coarse
grain. Total cars loaded to date
amount to 52,773 as against last
year figures of 38,257.

There is every indication that the
volume of travel to Europe during
November and December will this
year be heavy. It is already appar-
ent that the number of those who
intend spending Christmas in the
Old Country will be unusually large,
and the Canadian Pacific Railway is
making special arrangements to
accommodate the traffic. A special
through train will be run from Win-
nipeg to St. John, N.B., on De-
cember 12, and through tourist
sleepers will run from Edmonton,
Calgary, Saskatoon, Regina and
other western points to catch other C.
P. sailings from St. John, thus
giving a through service from these
cities to the Old Country.

How Island.—The Canadian Pa-
cific Railway Company has a large
number of men at work here on the im-
provements to their pumping plant and
when completed there will be quite
an improvement to the volume of
water that can be pumped from the
river. The work includes the putting
in of a new water tank, which will
hold 100,000 gallons of water, and
the installation of a new pump. The
pump is being installed by the com-
pany's own men, and the work is
being completed in a few days.

Winnipeg.—Western Canada's ex-
port business in fruit, potatoes and
other lines of produce has developed
to such proportions that exporters
are now arranging to establish big
collecting warehouses in Winnipeg
and other cities of the prairie pro-
vinces. The Canadian Pacific has
granted special storage in transit
privileges at Winnipeg, Regina,
Moose Jaw, Lethbridge and Calgary
on carload shipments of apples in
boxes originating in British Colum-
bia.

Under the new arrangement the
shipper has the privilege of holding
this produce in Winnipeg or any
of the other western cities named
for a period of six months and then
on reshipment he gets the advan-
tage of the through rate.

St. John, N.B.—The prize awards
to section foremen on the New
Brunswick district of the C. P. R.
for the best sections of rails, road-
bed, etc., have been announced re-
cently by General Superintendent J.
M. Woodman. His prize of \$50 for
the second best went to N. Mason
on the Shogomoc sub-division. The
first prize of \$100, given by Man-
ager J. J. Scully, was announced a
few days ago. Of third prize of
\$25 each, one given by Superin-
tendent Boyles of Brownville, is
awarded to W. E. Naason, on section
5, Matterwamung sub-division; and
one given by Superintendent Gill-
land of Woodstock, to T. Abbott for
section 11 on the Shogomoc sub-
division. The list of roadmaster
prizes of \$10, the sub-divisions and
the winners, follows:
Roadmaster, Telford, St. John; winner, W. B. Harris.
Roadmaster, Owens, Shore Line; winner, T. Gidden.
Roadmaster, Hodgson, Moosehead; winner, B. Beadeau.
Roadmaster, Bird, Moosehead; winner, E. Plante.
Roadmaster, Richardson, Shogomoc; winner, B. Saunders.
Roadmaster, Lister, Gibson, win-
ner, B. Clark.
Roadmaster, Walsh, Edmundston; winner, W. H. Morill.

A great many people think that a

knows some interesting scandal.
The breadth of life depends
upon how much of the world is
taken into its heart.
It's very unlucky to lose it on Fri-
day.

REPORTS LESS
CARS USED IN
THIS PROVINCE

Less Cars Used in Alberta This
Year Than Last; Movies
Also Show Sag

Forty-two thousand, new blue and
white automobile license plates for
1923 were delivered to the provincial
secretary, this month. Unless next
year sees a decided increase in the
number of car users over this, there
will be more than enough licenses in
his delivery to satisfy all demands.
Last year 39,852 licenses were issued
as compared with 39,750 this year,
his being the first time the provincial
secretary has had to report a falling-
off in the number of motor car driv-
ers in the province. There have been
many prosecutions during the year
for operating cars without licenses.

Less people also are going to the
movies in Alberta, according to the
returns from the amusement tax. The
amount collected is about the same
as last year in spite of the fact that
the rate of taxation was increased.

THE SPIRIT OF ORDER

Carved in stone over the kitchen
fire-place at Abbotsford, the home of
Sir Walter Scott, is the legend, "Waste
not, want not." These few simple words
contain in their entirety the secret of
the spirit of order in the midst of
plenty.

Order is the prime requisite in any
field of human endeavor—in a home,
a business or an army. The maxim of
order is, "A place for everything and
everything in its place." Think it over
a bit.

The best manager of time is order;
for unless work is properly laid out
and arranged, time is lost; once lost,
it is gone, never to return. And in no
sphere of human effort is time more
valuable to success than in the business
industry.

The respect that we have for our-
selves and for our fellow men is order.
The proper regard for the rights of and
our obligations to others is order.
Virtue, itself, is but an orderly arrange-
ment of moral attributes. Creation's
dawn began with order; chaos pre-
vailed before.—The Kalends.

AN IMPORTANT QUESTION

A preacher at the close of his sermon
said: "Let all in the house who are
paying their debts stand up." Presently
every man, woman and child, with one
exception, rose to their feet.

The preacher seated them and said,
"Now every man not paying his debts
stand up." The exception, a careworn,
hungry-looking individual, clothed
in his last summer's suit, slowly assum-
ed a perpendicular position.

"How is it, my friend," asked the
minister, "you are the only man not
able to meet his obligations?"
"I run a newspaper,"
"and the brethren here who stand up
are my subscribers, and—"
"Let us pray," exclaimed the minister.
If this question was asked in your
congregation, what would you do—
stand up or sit still?

Fortunately, prayers are not always
answered.

The good looking woman insists on good looking shoes. We have them; they are fashion's latest demand. You must see the graceful lines these shoes give your feet in order to know the difference between other shoes and ours.

These shoes are made of splendid leather and will you good wear, one in today and be fitted to a pair, while we have your size.

Our new undergarments, corsets and stockings will refresh your wardrobe.

We sell Good Goods; we Price them right.

MAIN STREET

WAINWRIGHT

YOU GET
THE AMOUNT OF THAT CHEQUE

We have made arrangements with the E. H. Booth Co. Limited who
publish the CANADIAN POWER FARMER whereby we are able to
offer that farm magazine together with our own weekly at the one
price for both papers.

The CANADIAN POWER FARMER is West-
ern Canada's biggest farm monthly. It is now
in its twentieth year, which means that it is
thoroughly established throughout the West.
It deals with the mechanical side of the farm.
Every month it is full of interesting and
valuable information on all kinds of farm
machinery from a washing-machine to a tractor.
Its editorial staff consists of men thor-
oughly familiar with every branch of farming.
Both from the practical and theoretical stand-
point. Every month the magazine publishes
experience sent in by readers. Many of these
are short cut findings that are real money
savers to farmers.

This offer may be withdrawn at any time.
Without doubt your intention is to cancel for
this weekly, then why not take advantage now.
Your subscription to this weekly together with
a year's subscription to the CANADIAN
POWER FARMER for the same price as this
weekly alone. This is where you get the \$1.50.
Mail your cheque or drop to our office the first
time you are in town.

HOW DOES YOUR LABEL READ?

FARMERS'
REQUIREMENTS

THE business and banking requirements of farmers are
many and various. This Bank, because of its close
contact with farmers, has learned through practical
experience how to serve them in a definite and satisfactory
manner.

It has co-operated with them when they had to purchase
land, seed, stock, and implements and has helped them to
save and to maintain their finances in an orderly manner.
Our branch manager will be pleased to have you consult
with him.

FIRE INSURANCE HOUSES TO RENT

I kept my barn insured for years, for I had dreams of scorching steers, of peacocks blistered to the carcase and pitchforks charred and burned. While other men were taking trips with bulging wallets on their hips I paid up my insurance tips with surplus coins I earned. Rough hoboos when allowed to stay threw burning cigarettes away and dropped live ashes in my hay yet never made a blaze. At last I argued to myself—Why stack on trouble on the shelf? Why not hoard up this surplus pelf to spend in other ways? So when the night came around he nearly sank into the ground, for I made no uncertain sound when I made known my plan. "All right," he said, "but some bright day you'll come around to me and say this risky business doesn't pay—you poor deluded man!" That night a hobo hove in sight, a weary man in corded plight, and asked if he might spend the night in my good mow of hay. "You may if you don't smoke in bed," said I. He shook a solemn head. "I never smoke," was what he said, and so I let him stay. I woke at three o'clock that night to see a weird and lurid light while through the yard I marked the flight of that untidy man. He'd left my barn a seething fire, a mass of flame from stone to spire; next day I found his pipe—a briar—he'd dropped it as he ran. I lost no livestock, thank the Lord, but lost the building, hay and Ford, ten tons of oats that I had stored for my good grubbing plug! I looked that agent up and said, "See here! Insure my house and shed, my woodpile, silo, stove and bed, as quick as you know how!"

ARRANGING FOR USUAL DUAL WINTER SPORTS AT TOWN RINKS

(Continued from page one)

Huntingford-Yeager—That the report
of the Finance Committee be accepted
and cheques issued covering the several
accounts.—Carried.

The Finance Committee reported re-
the accounts of Elite theatre company
to E. L. Fuller, rental of theatre for
teachers' convention, \$25, and P. D.
Laird, sundry items, \$297.38, that
these accounts be dealt with by Coun-
cil sitting as a committee of the whole.

Huntingford-Yeager—That the re-
port of the Finance Committee be ac-
cepted and that the Council do now
resolve itself into Committee of the
whole.—Carried.

The Council thereupon sat in com-
mittee, Huntingford-Yeager being
appointed to the chair for that purpose.

The committee upon rising recom-
mended that an arrangement be made
with the Elite Theatre company where
by the Council will pay the \$25 rental
of theatre for teachers' convention at
the theatre for 1922 amounting to \$15 is
paid; and also—

That the account of Mr P. D. Laird
with regard to the unpaid balance
amounting to \$297.38 be laid over until
such time as Mr Laird can arrange to
meet either the Finance Committee or
the Council as a whole to explain the
items in the said account.—Carried.

Yeager-Davison—That the report of
the Committee of the whole be adopt-
ed.—Carried.

The Assessment and Property com-
mittee reported jointly with the com-
mittee on Health Parks and Cemetery
recommending that the gates at the
cemetery be repaired by re-setting the
posts, and that hereafter the gates of
the cemetery be kept locked, and that
keys be held by the secretary and the
local undertaker. They also recom-
mended that for the convenience of
foot traffic a turnstile be installed near
the main gate.

Davison-Fish—That report of joint
committee re the cemetery be adopt-
ed.—Carried.

A report from the Health Commis-
sioners, an extra team to assist in the
scavenging was presented to the Coun-
cil, but on a resolution being placed on
the table for its adoption it was lost
without a division.

The Assessment and Property com-
mittee sent a report recommending
the drilling of a well on the lane in the
rear of the fire station. The adoption of
this was lost, the motion being placed
before Council.

The Assessment and Property pre-
sented a report recommending the can-
cellation of that portion of Plan 890A
blocks 127 to 131 inclusive, and blocks
92 to 96 inclusive in Plan 5721AD,
both portions being north of Camp-
bell avenue.

Davison-Yeager—That report of As-
sessment and Property Committee re
the cancellation of that portion of the
townsite north of Campbell avenue, be
adopted.—Carried.

The applications for the position of
night watchman and rink assistant as
per the advertisement in The Star hav-
ing been placed before Council, it was
moved—

Davison-Fish—That the application
of W. Glass be accepted, and the ap-
pointment made immediately.—Carried.

Davison-Fish—That the Mayor ap-
point a committee of management for
the rink for the season 1922-23.—Car-
ried. The Mayor then appointed as a
the rink for the season 1922-23.—Car-
lors Davison, Yeager and Fish; the
first named to be chairman.

The matter of emptying all cesspool
before the hard weather set in having
been fully discussed.

Davison-Fish—That the Health,
Parks and Cemetery Committee be em-
powered to make arrangements to get
the cesspools about town pumped out
along the lines discussed by Council.—
Carried.

The hour having arrived for auto-
matic adjournment, it was moved

Wiley-Fish—That the time be ex-
tended for thirty minutes.—Carried

Councillor Wiley rose to a question
of privilege regarding certain state-
ments made by the Mayor at a pre-
vious Council meeting, and a satisfac-
tory explanation having been made by
the Mayor from the chair

Huntingford-Yeager That the Coun-
cil do now adjourn.—Carried.

The farmers north of the river are
taking full advantage of the good
roads and mild weather to haul their
grain, and the elevators have been real
busy for the past week.

Mr Dave Dundas paid a flying visit
to Chauvin at the week end.

Just received. A supply of "Gold
Seal" phonograph recorders; they are
just the thing for dancing. Price \$1.75
at Gerow's drug store.

WARNING

Any Persons doing damage to or
Stealing anything from my prem-
ises on the N.E. 36-46-6W4 will be
prosecuted to the limit of the law.

mation leading to the conviction of
the person or persons who recently
broke into my barn on the above
premises.

(sgd.) W. PILKINGTON,
15-11 Box 150, Wainwright.

ALTA. LEGISLATURE SESSION TO BE HELD ON JANUARY 23

House Sitting Delayed till January 23
Resources Parley at Ottawa
Comes First

The legislature of Alberta, which
had been called to meet December 7,
has been postponed to January 23,
and an order-in-council to that effect
has been signed by Acting Premier
Headley. Notice is being sent to all
the members.

The change has been necessitated
by the late date fixed by the Ottawa
authorities for the conference on nat-
ural resources which Premier Green-
field and Hon. J. E. Brownlee are at-
tending. As this conference will not
meet until November 14, and as the
ministers have other government busi-
ness to transact afterward in the
east, it was felt to be inadvisable to
bring on the fall session, as first pro-
posed, so soon after their earliest pos-
sible return home. A postponement
until after the new year was therefore
decided upon.

Mr Greenfield has repeatedly ex-
pressed his belief that the government
will not go into another session of the
legislature without being fully pre-
pared for it and all the proposed leg-
islation well in hand. It is in order
to give the necessary time for this
work that the resources question has
been delayed, that the date of open-
ing has been moved ahead.

The cause of the "shut-down" at the
power plant on Thursday was the burn-
ing out of a bearing on the generator.

Mrs (Dr) McPherson will be in
town at the end of the week from
Ryley, as the guest of Mrs H. W. Mc-
Leod. She will be paying her official
visit to the Rebekah lodge on Thurs-
day evening as Assembly president.

Having bought a big farm in the Cal-
gary district, Mr A. C. Walker, of the
Irma district is arranging to hold a
closing out sale of his stock, imple-
ments, and household effects on Fri-
day next at noon. Bill Stuart will cry
the sale.

Local Notes

Mrs J. Nachtergale, of Chauvin,
was in town for a few days on a visit
to her daughter Mrs C. Glass.

Mrs J. L. Gerow left on Wednes-
day last for a short visit with her
parents in the city.

We are glad to note that Mr A. E.
Mills, who has suffered a bad attack
of pleurisy, is now much better. He
was out for a short while on Monday.

There are rumors of labor troubles
at the mines; better take home a few
loads of Black Diamond lump or stove
coal from the Atlas yard.

Miss L. Gardiner, sister of Capt.
Gardiner who is in charge of the S. A.
Citadel at this point arrived last week
end.

The local trail rangers gave a pre-
sentation of "Lorna Doone" in pictures
at Grace church on Wednesday even-
ing to raise funds for their exchequer.

An interesting event takes place at
Edgerton today when Miss Daisy Mac-
docks will become the bride of Mr.
William Kelly.

Mr D. P. Weibe returned home on
Monday after a visit to his wife who
is still in hospital in Edmonton. We
understand that the patient is pro-
gressing nicely.

Mr R. B. Baxter, general superin-
tendent, and Mr J. Baker, plant chief
of the Alberta government phones are
on a tour of inspection and gave the
local office a call last week end.

Arrangements are being made for
the holding of the anniversary ser-
vice at St Andrew's church on Decem-
ber 3rd next, when the Rev. N.
Keith of Edmonton will be the speaker
for the day.

The date is announced for the annual
"At Home" of the local Oddfellows,
this being set for December 6th. Good
old time dances and cards will be the
attraction, and supper will be provided.
As this is in the nature of a lodge
social, no tickets will be sold at the
door.
